PROJECTS

Notepad Website

- <https://arcane-forest-44651.herokuapp.com/>
- This website focuses on integrating the front end with a mongoDB database
- Mongoose is utilized as a framework to set up the database

Notes WebApp

- <http://ancient-tor-93942.herokuapp.com/>
- This is an updated web application of the notepad website built utilizing react.js
- The notes can be saved and deleted seamlessly due to react
- The data is stored locally in the Local Storage

Twitch Streamer Website

- <https://arcane-eyrie-36117.herokuapp.com/>
- It integrates with the Twitch API to feed live data on the streamers follower count
- This website was created in collaboration with an active twitch streamer, at the time. Utilizing their input to deliver a website they love.

Grocery Store Website

- <https://hidden-beach-41717.herokuapp.com/>
- It utilizes the Stripe API to conduct transactions through a node.js/express.js server.
- The users information and the cart details is fetched from the front-end and reformatted for the Stripe API to conduct its transaction, server side

Portfolio Website

- <http://painteon.co/>
- Showcases all of the applications/websites that I have constructed
- JQuery and Bootstrap4 were used in this website to show my how well I can utilize industry standards technologies in my websites.

EDUCATION

Bachelor of Science in Biological Sciences

University of California, Irvine

June 2018

Udemy Web Development Bootcamp
