PROFESSIONAL EXPERIENCE

Quality Assurance Specialist - **Aston Carter Temp Agency**   October 2021-Present
San Dimas, CA
- Communicate with doctors regarding inconsistencies with medical reports
- I worked with the company QTC management as a Temp worker handling medical claims for Veterans
- Review medical records for claim status
- Review and edit doctor's report for consistency for the Veteran Affairs
- Finalize on average 10 medical benefits reports a day

PROJECTS

Notepad Website
- https://arcane-forest-44651.herokuapp.com/
- This website focuses on integrating the front end with a mongoDB database
- Mongoose is utilized as a framework to set up the database
- Text typed on the main page is saved into the database upon the user clicking "save". Going to "saved pages" retrieves and displays all saved notes in the database
- A selected note can be deleted from the database using the minus sign and is immediately updated on the screen

Notes WebApp
- http://ancient-tor-93942.herokuapp.com/
- This is an updated web application of the notepad website built utilizing react.js
- The notes can be saved and deleted seamlessly due to react
- The data is stored locally in the Local Storage
- The app is still under development as more features will be added

Twitch Streamer Website
- https://arcane-eyrie-36117.herokuapp.com/
- This website is a landing page for a twitch streamer
- It integrates with the Twitch API to feed live data on the streamers follower count

- This website was created in collaboration with an active twitch streamer, at the time. Utilizing their input to deliver a website they love.

Grocery Store Website
- https://hidden-beach-41717.herokuapp.com/
- This website is another lading page that functions as a mock grocery store
- It utilizes the Stripe API to conduct transactions through a node.js/express.js server.
- The users information and the cart details is fetched from the front-end and reformatted for the Stripe API to conduct its transaction, server side
- Use test card number 4242 4242 4242 4242

Portfolio Website
- https://obscure-wave-34766.herokuapp.com/
- My portfolio website that displays the current peak of my creativity and UX/UI design skills
- Every aspect of the website, besides the grid, was hand crafted
- Jquery and Bootstrap4 were used in this website to show my how well I can utilize industry standards technologies in my websites.

EDUCATION

Bachelor of Science in Biological Sciences

University of California, Irvine   June 2018
